

NISSAN FIGARO 20,000 KMS OR 12 MONTH SERVICE SCHEDULE

Car Reg: _____ Date : __ / __ / ____ By: _____

OPERATION	B 12000 kms or 12 month	Complete	Notes
Check operation of exterior lights (including additional rear hazard lamp)	X		
Check horn operation	X		
Check seatbelts for security, damage and operation.	X		
Top up battery if applicable and check security. Check security of terminal connectors.	X		
Check reservoir level and top up brake fluid	X		
Check windscreen wipers for operation and worn / damaged blades.	X		
Check windscreen washer operation and top up reservoir	X		
Check / top-up power steering reservoir	X		
Check Coolant / Antifreeze strength and check / top up level in radiator and expansion tank	X		
Check condition, tension and adjust as required - auxiliary drive belts	X		
Replace oil filter	X		
Drain engine oil and refill. Fit new sump drain plug seal	X		
Check operation / clean PCV valve	X		
Check / top up automatic transmission fluid	X		
Check for general oil leaks – transmission / engine / power steering	X		
Check front & rear wheel bearings for play or noise	X		
Check steering / suspension components for wear, damage and security	X		
Check condition / security of steering rack gaiters	X		
Check shock absorbers for security & leakage	X		
Remove front wheels and check discs for wear, cracks, corrosion and scoring	X		
Check front brake pads for wear	X		
Check calipers for leaks and operation	X		
Remove rear wheels and check drums for wear, cracks, corrosion and scoring	X		
Check brake shoes for wear, damage or contamination	X		
Check action of automatic brake adjuster.	N/A		
Clean and lubricate if necessary Inspect wheel cylinders for leaks and operation	X		
Visually check brake hydraulic system, pipes and hoses for leaks, chafing and corrosion	X		
Check security of hand brake linkages, lubricate adjuster pivot assembly	N/A		
Adjust handbrake if required	N/A		

Check drive shaft and CV joints for wear and damage	X		
Check drive shaft gaiters for security and leaks	X		
Inspect exhaust system for leaks, security, noise and excessive corrosion	X		
Check tyre condition, tread depth, record readings (including spare)	X		
Check and adjust tyre pressures (including spare)	X		
General visual underbody inspection for damage / faults	N/A		
Set wheel nut torque to manufacturer's specification	X		
Carry out battery condition test	X		
Check condition of fuel lines	X		
Visual inspection of HT leads and distributor cap	X		
Replace Spark plugs	X		
Replace air filter element	N/A		
Replace fuel filter	N/A		
Lubricate throttle linkage	X		
Check radiator for leaks	X		
Check condition of radiator cap	X		
Check coolant hoses for leaks and condition	X		
Check expansion bottle and cap	X		
Check electric cooling fan for operation	X		
Lubricate bonnet catch	X		
Lubricate accessible door / hinges if required	X		
Check fuel filler cap condition	X		
Check tyres for indications of steering misalignment	X		
Check windscreen condition	X		
Check mirror condition. Exterior	X		
Check mirror condition. Interior	X		
Check number plates – legal requirements / security	X		
Check for timing / cam belt replacement (report if due)	X		
Replace brake fluid and bleed system	N/A		
Drain / flush cooling system and replace coolant / antifreeze (<i>longlife coolant every 5 years</i>)	N/A		
Check / adjust normal idle speed	X		
Check / adjust ignition timing	X		
Check ECU for Lambda sensor response, fuel modulation and fault codes	X		
Adjust valve clearances (tappets)	N/A		
Road test & report	X
