

International Vibes
Japan Meets Italy in Wales,
The Land of Song

3 SEPTEMBER 2023

A WARM FIGGY WELCOME TO WONDERFUL WELSH WALES

While travelling through our valleys
Up hills and down our dales
You'll know which land you've come to
It's Wonderful, Welsh Wales

It's tough on our poor Figgies
With so many sights to see
Stop, starting for a photo op
This fills our souls with glee

We've sheep along our road sides
Goats wandering our streets
Red Kites soaring above us
And voices sing so sweet

Castles fill this country
Our land of hwyl and song
The green, green grass of Cymru
Where passion is so strong

We're so proud of our homeland
Our hospitality too
We really are so happy
To greet friends, old and new

If it wasn't for our Figgies
Who knows if we'd have met
Perhaps in far flung places
As part of the jet set

But our cars bring us together
As friends throughout the world
Smiling, happy faces
With arms outstretched, unfurled

No matter where we travel
In lands so far apart
We'll always have our Figgies
Wrapped up in our hearts

So once again we thank you
And your faithful Figgies too
For visiting this land of ours
For taking time to drive right through

For constant help of Figgy Club
For driving all these miles
For being such a friendly crowd
For being part of Figaro Smiles
