## Nissan Announces Domestic Release of All-New Figaro

TOKYO — Nissan Motor Co., Ltd. today launched limited domestic sales of the all-new Figaro, a compact coupe that follows the successful Be-1 and PAO niche cars. The Figaro recreates a car that was first made possible the concept car unveiled under the same nameplate at the 28th Tokyo Motor Show in 1989. The sales volume of the Figaro will be limited to 20,000 units.

The Figaro was developed around the concept of creating a distinctive, personalized coupe that would allow owners to enjoy a delicate feeling of stylish elegance in everyday life. In commercializing the concept vehicle, Nissan has given the Figaro a unique design that conveys a sense of spirited lifestyle. It also features a full complement of equipment and appointments intended to make it a successful tool for a good life. In addition, careful attention has been paid to enhancing the quality and safety features of the car, resulting in an eminently refined product.
