## Nissan Announces Domestic Release of All-New Figaro

# OFFICIAL PRESS RELEASE:

TOKYO — Nissan Motor Co., Ltd. today launched limited domestic sales of the all-new Figaro, a unique two-seater sports car designed to appeal to the Be-1 and PAO niche cars. The Figaro is a direct descendant of the concept car unveiled under the same nameplate at the 28th Tokyo Motor Show in 1989.

The price of the Figaro is set at 1,800,000 yen (US\$10,800). The Figaro was developed around the concept of creating a distinctive, personalized car that would allow owners to enjoy a delicate feeling of stylish elegance. In addition, to hammer home the concept of a sport vehicle, Nissan has given the Figaro a unique design that conveys a sense of spiritual satisfaction and a full complement of equipment and appointments intended to satisfy a zestful desire for a good time. In addition, careful attention has been paid to enhancing the quality and safety features of the car, resulting in an eminently refined product.
